

Registering as a New Member on the Bridport Bowling Club Website

This guide will take you through the process of registering as a new member on the Bridport Bowling Club web site. Registering grants you access to the Members Area which contains up to date fixture lists, team selections, bar and kitchen rotas, telephone numbers and competition results.

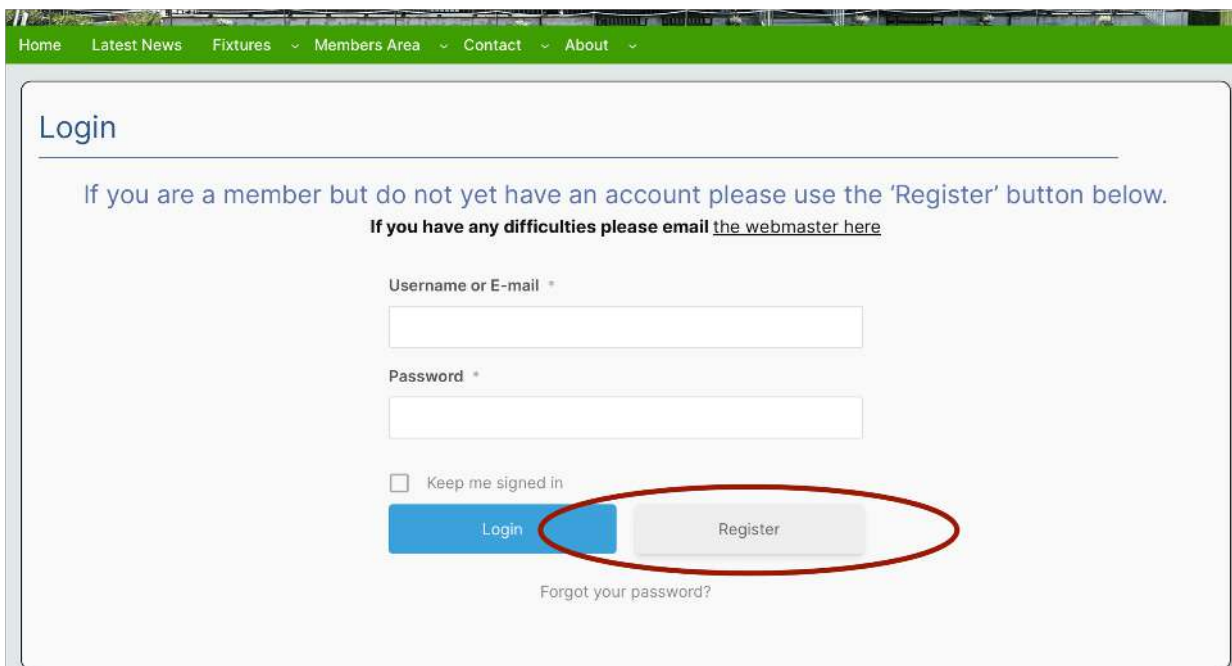

Step 1 - Navigate to the web site

www.bridportbowlingclub.org.uk

Step 2 - Select the Members Area from the top menu, and then the Login / Register option from the sub-menu

Step 3 - Click on the Register button at the bottom of the Login page

Step 4 - Choose a User Name and complete the rest of the fields

The screenshot shows a mobile browser interface for the Bridport Bowling Club website. At the top, the time is 13:00 on Saturday, 4th April, and the battery level is 55%. The website URL is bridportbowlingclub.org.uk. The navigation menu includes Home, Latest News, Fixtures, Members Area, Contact, and About. The main content area is titled "Register" and contains the following text:

This form is for use only by full paid up members of Bridport Bowling Club to gain access to the members area.
For technical problems or assistance please email: [the.webmaster here](mailto:the.webmaster@bridportbowlingclub.org.uk)
For all other enquiries please email: info@bridportbowlingclub.org.uk

The registration form includes the following fields:

- Username (used to login – you can use your name) *
- Password (at least 8 characters including a capital, a lowercase and a number) *
- Confirm Password (at least 8 characters including a capital, a lowercase and a number) *
- First Name *

Field	Contents
Username	This is the username which identifies you from other members. It must be unique. It can be your name, email address or shortened name such as GrahamT, LizB etc. If you get an error stating it is invalid it will be because someone else has already used that name so you will have to choose another.
Password	Minimum 8 characters including an uppercase, lowercase letter and a number
Email	The email address must be unique. If you get an error stating it is invalid it will be either the email address is invalid (missing @ for example), or is already in use. If it is already in use then please enter your email address into the LOGIN page (not REGISTER page) and then select the forgotten password link. If that still fails please email the webmaster who can delete the old username so you can start again.

Step 5 - Wait for the registration request to be approved.

The registration process is complete. The approval is a manual process as we need to check your request is genuine. We get a lot of spam requests (from Nigeria and so on) so unfortunately this is not an automated process. Once the registration has been approved you will be able to login.
